Manage your Finances with Precision

Sound financial planning and management is crucial to assure sustained growth of a business. To meet this, organizations must have an end-to-end view of operations and their associated financial transactions. BatchMaster Finance plays a perfect role here. BM Finance offers a holistic view of company finances, enables monitoring of working capital and ensures a firm grip on enterprise-wide costs.

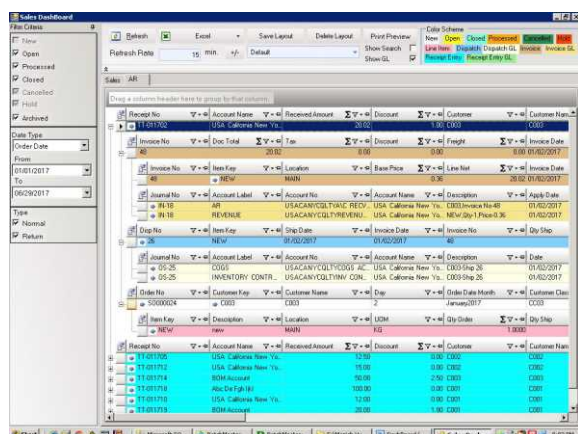

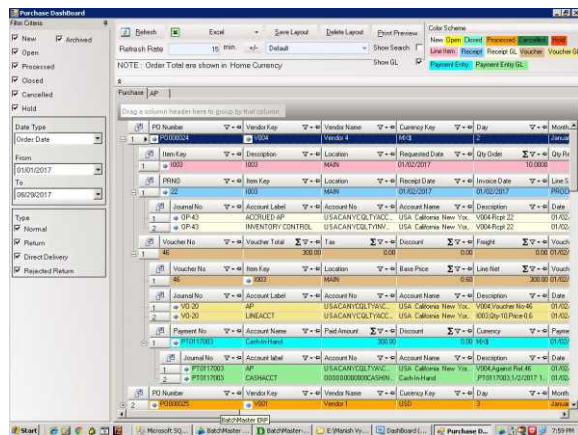

It acts as a solid financial foundation for the businesses to streamline financial operations by maintaining ledgers and journal entries, handling tax calculations and multi-currency transactions plus by managing banking activities. In-depth visibility into cash flow is achieved through seamless integration with other processes like Sales, Purchase, Production, Inventory, etc. All sorts of important financial reports, bank/cash transactions, contra entries, void cheque transaction, reconciliation, etc. further streamline and automate the complete chain of activities related to financial services.

BatchMaster Finance is a new addition to our process-centric ERP solution- BatchMaster ERP, with the purpose of making it a complete solution handling distribution, manufacturing, inventory, financial, quality and compliance needs.

A rich experience of 30 plus years and numerous implementations makes it an ideal choice for formula and recipe based manufacturers, helping them optimize operations, cut costs and increase profitability.
