

Streamline operations, assure quality, meet compliance, & handle GST.

BatchMaster Enterprise Resource Planning (ERP) software is a proven solution with over 30 years of experience in serving small to mid-size formula-based manufacturers. Providing them the ability to operate their businesses more effectively with less effort and at lower costs, it also offers a faster return on investment by making an organization more effective and efficient without compromising on customer service.

By having sales, procurement, production, formulation, R&D, compliance, finance, quality control, inventory, and more, integrated together, it offers a holistic and collaborative view of your complete supply chain. Moreover, witnessing a rise in concerns regarding incorporation of GST into the existing framework, the product has been updated meeting the statutory guidelines. Making GST transformation and compliance seamless is its GST Module that is capable to handle different form formats, input tax credit, unique keys for CGST, SGST and IGST, their adjustments, and other features/rules stated under the proposed structure of GST.

Features ▶
