

## BatchMaster Point-Of-Sales

### Make your retail store customers' favorite

Whether you are into wholesale, distribution, restaurant or retail business, BatchMaster POS understands your needs and is a solution crafted to perfection. A web-based, ERP integrated POS system- BatchMaster POS comes loaded with comprehensive retail management features which are tailor-made for your business. These features allow you to gain complete control over your operations and execute them in just a fraction of seconds with an extremely user-friendly interface.

Operable on any device, be it, smart phones, tablets, industrial machines or laptops, BatchMaster POS can handle everything from your retail operations to inventory management, accounting, sales and planning, to tax handling. It is ideal for single as well as multiple stores as it ensures consistent pricing, similar offers, stock availability and more, running down right from the head office.

# BatchMaster Point-Of-Sales

Fast setup, faster selling, quicker offer, discount and loyalty point application, ease of payment, seamless information retrieval, better responsiveness and more, help make your retail your customers' favourite.

- **User-friendly interface:** Designed with a user-friendly graphical interface, it allows performing transactions, quickly and easily.
- **Versatile:** It provides everything your store/restaurant needs while offering integration with an ERP for complete order, product, production and inventory integration in real-time.
- **Multiple payment modes:** The system is flexible to multiple payment modes. You can accept the payment through cards, cash, cheques, e-wallets, or other bank transfers.
- **Convenient hardware compatibility:** The multi-user interface allows concurrent access by unlimited users on the system via: iPad or android tabs, laptops, desktops, special utility hardware etc.
- **Customer & Loyalty Info:** All your customer and loyalty information can be entered once, but used time and again with a click through advanced search filters.
- **Entry-of-sales information:** System can obtain the sales price, compute the price of multiple quantities, apply appropriate discounts, offers, coupon code as well as taxes and provide a running total, in practically no time.
- **Pricing & Offers:** Offers multiple ways to keep track of pricing, including add-spot discounts, and discounts on the amount or percentage of cost. Happy hours, seasonal offers, promotional offers et al run consistently across multiple locations.
- **Updating item information:** It automatically updates inventory and accounts receivable records once the transaction is entered.
- **Invoice tracking options:** With BatchMaster POS, you can put any particular sales order on hold by keeping the invoices open until the work is completed.
- **Security:** In order to keep tight control over cash receipt, BatchMaster POS offers 'Approval' feature while pricing items and providing spot discounts.
- **Supports multiple tax rates:** It supports numerous tax rates, which are useful if you run a business that needs to deal with different tax authorities plus taxes.
- **Business Analysis:** Numerous reports to list-out fast selling, low selling, expiring, picking-up and such product. Identify profit, losses and margins of your various stores to take the appropriate action faster.
