BatchMaster ERP for Apparels

Truly tailored to the needs of your apparel business

BatchMaster ERP for Apparels is tailored to the frequently changing needs of the industry operators, namely the retailers, wholesalers, distributors, as well as the apparel manufacturers. An integrated and quick-to-deploy software which is also available on Cloud, that offers a buffet of solution to handle manufacturing, distribution, warehousing, finance, GST, point-of-sale and e-commerce.

It comes loaded with many industry-specific features that allows to manage the entire fashion supply chain efficiently — right from product designing, development, demand management, production & material planning, production & inventory management, to support for multichannel distribution.

BatchMaster ERP for Apparels offers the data of the online orders, and ensures the stock availability to fulfil those orders. It also enables quick reply to customer queries, controlling and monitoring the operations, as well as planning and scheduling the orders accurately. The solution also lets you manage your financial transactions — including your GST and tax related worries —in a better way.

* Actual project plan may vary depending on number of users and project scope assessment.

Products:

BatchMaster ERP
Our flagship product, BatchMaster ERP is a true process-centric solution serving the manufacturing, distribution, finance, compliance, and quality needs of your business.

BatchMaster Point-Of-Sales (POS)
A web-based software solution for wholesale, distribution, and retail businesses, it can be used online on iPads, Android tablets or laptops. By syncing the complete information of products, customers, and orders into a single platform, it makes it easy to scan products, check for inventory, apply discounts or offers, and accept payments both in plastic money as well as in cash. Ultimately, it helps retailers improve customer service, increase productivity, reduce thefts, and offer better retail experience.

Integration with MAGENTO:
Integration of BatchMaster Enterprise with Magento helps manage your business online. The integration provides a seamless method to completely collaborate your ERP system with your current or upcoming Magento stores. Via this integration, orders from your Magento store and website will automatically be loaded into the BatchMaster ERP solution – along with an alert about order arrival. It enables complete synchronization of item records, price lists, inventory, taxes, business partners, orders, deliveries, shipping & tracking, and payments.
