

BatchMaster ERP for Dairy

Reduce Wastage. Assure Quality. Meet Compliance.

BatchMaster provides unique ERP solutions with dairy-focused offerings that seamlessly plans procurement, tracks expiry, meets compliance and efficiently handles your perishable goods. It integrates and streamlines your distribution, manufacturing, quality and finance while also efficiently planning your material as well as production to reduce wastage.

BatchMaster ERP for Dairy

With over 30 years of experience, BatchMaster fully understands the complex challenges of the dairy industry, and gives manufacturers a competitive platform to address these challenges in an effective way through features like:

- Track purchases on a real-time basis
- Supports multiple purchases at the same time from multiple vendors
- Check the quality of the milk before receiving
- Payment of milk based on its strength/content of fat through lot strength feature
- Issue milk based on shelf life
- Return handling of spoilt milk
- Attribute based storage, pricing and production
- Efficient planning based on milk's shelf-life
- Recipe and Formula Management
- Material and Package Costing
- Bi- Directional Lot Traceability and Lot Recall
- Allergen Management
- Supplier/ Vendor Management
- Inspection Planning and Inspection Schedule
- Adverse Event and Complaint Reporting
- Nutritional Labelling
- Ingredient Statement and Report
- Corrective Action Preventive Action (CAPA)
- Non-Conformance (NC)
- Hazard Analysis and Critical Control Point (HACCP)
