BatchMaster ERP for Enamel

Make your business glow, your profits shine!

The application of enamel paints is in varied industries such as automobile, construction, aerospace, shipbuilding, machines and equipment, etc., and with such wide scope come diverse industry complexities. Different industries have different challenges and meting them in itself is a challenge. BatchMaster ERP for Enamel paints takes on this challenge and simplifies the business processes for enamel manufacturers. Its power-packed features keep the rising cost of raw materials and energy under check, ensure compliance with strict environmental regulations and help with planning. Wait, there's more to it!

Managing finances, meeting timely deliveries, identifying and using greener products, procuring right material from certified vendors, capacity plus resource planning and such, keep paint manufacturers on toes but BatchMaster ERP helps master them with ease and to perfection. With it, all the processes are in complete sync with the strategic business workflow, thus allowing the enamel manufacturers greater control over their business.
