BatchMaster ERP for Powder Coatings

Gives your business the competitive edge it needs

Pegged back by multiple recessions and wafer-thin profit margins, the powder coatings industry has picked up pace in recent times. It has got much to do with the rapidly maturing manufacturing techniques and fast developing processes as well as materials to coat the manufactured products. This has pushed for an immediate need for the growth of coating technology and perfect finish these new materials need. In such exciting-yet-challenging times, the companies operating in the powder coatings industry need a helping hand that sees them through the transitional phase through its technical expertise.

BatchMaster ERP is precisely that solution for powder coating manufacturers. The powerful software ensures accurate and compliant color matching, helps reduce costs and bring new innovative products faster to market, covers the entire production process, empowers manufacturers to apply quality checks and assure the quality, gives greater control on inventory management, manages raw materials and prepares solid framework for accurate and timely planning.

BATCHMASTER®
Process Manufacturing Software

SAP®Business One

BatchMaster ERP for Powder Coatings

BATCHMASTER®
Process Manufacturing Software

Its robust features are as follows:
